Miscellaneous Items. A newspaper in the West, in some reminiscences of Daniel Webster, alludes to his fondness for reading the Bible and to the fact that "he dwelt with profound interest on the mag-nificent prophesies of Isabella." That news-paper's theology needs furbishing. We in-cline to believe it meant Isaiah instead of Isa-

The unusually-for this time of the yearwarm weather of the last few days has been much commented on. In New York within one brief week's time, the citizens were permitted to undergo winter, spring and summer weather quickly following each other. The people, in consequence, believed that all was not right in the terrestrial system.

UNSETTLED WAR CLAIMS

AT ITS LAST SESSION CONGRESS, AS an amendment to the army appropriation bill, directed the President to appoint a commission to ascertain and adjust the claims of all loysion to ascertain and adjust the claims of all loyal citizens in the South for Quartermaster and Commissary supplies furnished to the United States during the war. Under the head of quartermaster are included hay, straw, wood, rent of houses and lots, grain, horses and mules, &c.—As commissary stores are included cattle and hogs, flour, corn meal, &c. As yet the rules which will be adopted by the commission concerning proof of loyalty and the furnishing of supplies are unknown. It is very necessary, however, that all claimants should have their claims presented at once, so as to have whatever claims presented at once, so as to have whatever benefit may result from priority of application,

The undersigned will receive and promptly at-tend to all claims of parties who deem themselves entitled to compensation under the above act of

Starke & Co., and any other that might enter the field of competition.

The plows were taken to the field at half-past two o'clock p. m., the following gentlemen acting as judges: F. W. Epes, J. B. Williams, Robert Scott, Jas S. Gilliam, Wm. T. Christian, Richard Epes, Dr. Darring, Sidney Graves, Walton Sydnor, F. C. Williams, G. N. Seayand J. M. Hutt. Mr. S. Graves and Walton Sydnor were the principal plowmen. Mr. W. Sydnor working the Watt plow and S. Graves the Dixie—both of whom handled them with masterly skill and success. skill and success.

The plows entered were the Dixie two-horse right and left hand plows, and the Watt two-horse left hand. Soon after the trial commenced. horse left hand. Soon after the trial commenced, the beam of the Dixie right hand broke in two and was laid aside, the contest being narrowed to the Watt left hand and Dixie left hand. The soil first selected was a stubble loam without soil; but as the plows were new, and did not turn in consequence of the roughness of the castings, after a short trial it was decided to take them to another field where the soil was a well trodden, tengelous clay, with a timothy sod covered with tenacious clay, with a timothy sod covered with vegetation and with straw. The plows here per-formed their work admirably, cutting and turn-ing clear without choking.

As the Dixie was a new comer, as the contest

waxed warm, most of the judges took hold of it to test personally its practical working. While there is no intention to do injustice to any, as neither party had agent or representative present, and both plows did well, yet the trial, with the award of the judges, is deemed of sufficient importance to the interest of agriculture to justify its publication. The award of the judges was unanimously in favor of the Dixie on the following grounds:

1st. It cut a deeper furrough.
2d. It cut a wider furrough.
3d. It more effectually inverted the sod.
4th. The draft seemed to be no greater. 5th. The mechanical arrangement for altering cut was deemed more simple and efficient. At the conclusion of the trial some of the judges were so pleased as to determine to order them for their own use.

J. M. HURT, Secretary.

I certify that the above was sent to the Richmond Whig for publication by myself; that I am not acquainted with Mr. Starke; that he had never seen the paper and knew nothing of its contents, and was in no wise a party to the trial of plows alluded to.

We, the judges in the "Plow Trial" on the farm of Mr. F. C. Williams, published in the Whig, hereby certify that it was directed to be sent to that journal as a communication by the judges who made the award.

MAGNUM BONUM

SOLUBLE PHOSPHATE

Reduction in Price!

This article in composed of Pure Ground Bone dissolved in Sulphurie Acid, Animal Matter and Potash.

It contains no heavy mineral substances such as enter into the composition of most of the articles sold under the name of Super Phosphates, and consequently the bags in which it is packed though as large as any other, contain only 167 pounds, thus saving to the farmer at least 20 per ent of weight in the same bulk.

It has less inorganic matter than those articles which are based on Rock Guano or other heavy

material. The farmer therefore derives benefit from almost every atom of its bulk, either as a crop grower or permanent improver of the soil.

PRICE \$54 PER 2000 LBS.

Mr. McGebee has been living with me now going on three years, and I think him one of the most accurate and reliable men it has ever been my good fortune to meet GEO. C. GILM, ER. Near Charlotte ville.

February 1, 1871.

Geo. C. Gilmer, esq.: Yours asking the result of my experiment with

Magnum Bonum is to hand.

The Fertilizer was applied to corn at planting.
May 5th, with machine, (wheat drill, with all tubes but two removed.) depositing same with seed at the rate of 50 pounds per acre. On June 28th was applied broadcast of same manure two hundred pounds per acre, ploughed in at last working of corn. The first application acted finely, causing the crop to push with a vigorous growth second to none, considering the difference as to time in favor of its competitors. The second application made when the corn was beginning to suffer for rain was entirely satisfactory in its results, producing a steady, rapid growth and development throughout the season, and a full remunerative return at gathering. The Magnum Bonum ranks among the best manures ever used. Respectfully. J. O. McGebee, Manager.
